

DATA SHEET

1-Port USB Car Charger, 2.4A Output

Quickly charge a mobile device from a DC outlet

OVERVIEW

The 1-Port USB Car Charger is an ideal solution for charging mobile devices while on long road trips or short commutes. This high-performance car charger features a compact design for easy portability and provides a power output of 5V and 2.4A for device charging.

The charger includes one USB-A port to charge a single device. The charger offers quick charging and has the ability to detect the accurate current output for protection against overloads, which can damage valuable mobile devices.

5 volts and 2.4 amps of power are available for device charging from this adapter when it is plugged into a DC outlet. The power output makes this adapter the perfect solution for charging smartphones.

FEATURES

- One USB-A female port
- 5V, 2.4A maximum total output
- Accurate current limit and overload protection
- Quick charging
- Fireproof shell material
- Blue LED indicator when powered

ITEM DESCRIPTION

80920 1-Port USB Car Charger, 2.4A Output

DATA SHEET

SPECIFICATIONS: 1-Port USB Car Charger, 2.4A Output

ELECTRICAL SPECIFICATIONS

- Input voltage: 12-24 Volts DC
- USB Output: 5 Volt, 2.4 Amps (maximum)
- Compliance: CE, FCC standards

PHYSICAL SPECIFICATIONS

- Operating Temperature: 0°C to +30°C
- Storage Temperature: -20°C to +60°C
- Humidity: Operating: 30~90%RH
- Humidity: Storage: 10~90%RH

PHYSICAL CHARACTERISTICS

- Car Charger: Steel-toed cap, Iron nickel plating
- Material: Polycarbonate (PC) resin, black
- UL94 Classification: UL94 V-0
- Colour: Black

Operating environment Temperature

- Operating: 0°C TO +30°C
- Storage: -20°C TO +60°C

Humidity

- Operating: 30~90%RH
- Storage: 10~90%RH
